JUG Joglosemar Position Statement

As a JUG, we are aiming to help our members to learn Java and how to benefits from it. And not only that, we also like to make sure that we participate in an international program for all Java Developers in the world. JCP is one of them. Although we haven't become an EC, we have try to participate in Adopt-a-JSR program.

Last year, we participate to adopt these JSR:

- JSR #344 (JavaServer Faces 2.2)
- JSR #342 (JavaEE 7)
- JSR #339 (JAX-RS 2.0)
- JSR #345 (EJB 3.2)
- JSR #356 (Websocket)

And we'll always try to cover much more of new technology described by the JSRs. Even though we'll be selected as EC or not.
