Adopt-a-JSR for Non-English Speakers!

**Bruno Souza,
Heather VanCura,
Martijn Verburg**

May 2013

Welcome!

Expand into other languages beyond English and Portuguese--
Arabic, French, German, Spanish...you choose!

How to participate?

- As an individual – OK.
- As part of a team – better.
- Work through your JUG.
 - Help each other.
 - Teach each other.
 - Work with each other.

Adopt a JSR!

Thank you **LJC** and **SOU Java**
sociedade de usuários java

What is it?

- A JUG-lead *global* initiative to improve Java standards.
- Groups of JUG members work on JSRs.
- See <http://adoptajsr.java.net> for full details.

Portal-coming soon!

Adopt a JSR

Adopt-a-JSR and Adopt-OpenJDK are intended to encourage Java User Group members to get involved in a Java Specification Requests (JSR) and the OpenJDK project. JSRs cover all aspects of the Java ecosystem such as the new Date and Time API coming into Java 8, the latest JavaEE 7 APIs for the cloud and much more! OpenJDK is the reference implementation of Java from version 7 onwards.

News & Announcements

Adopt a jsr Introduction
Mar 5, 2013

Recordings of the recent adopt-a-jsr online call have been published by the JCP at <http://jcp.org/en/resources/multimedia>. This contains an explanation of how to run an adopt-a-jsr program at your local JUG.

LJC JCP Committee Meeting minutes - February 2013

Adopt a JSR Projects

- Adopt a JSR
- JSR Transparency
- Adopt OpenJDK
- London Java Community (London JUG)
- Brazilian Java Users Society

Why should you get involved?

- To move the entire Java ecosystem forward.
 - To help define the future of Java – best way to predict it.
- To speed up the standards-development process.
- To become part of the solution as opposed to staying silent.
- To be at the forefront of new technology.
- To ensure that Java standards are practical and relevant for the real world as opposed to the ivory tower.
 - We need expert input from end-users and developers.
- To ensure that Java standards are truly global.
 - We need expert input from non-English speakers.

How can you join Adopt-a-JSR?

- Contact your local JUG leader, or...someone on this call to let us know of your interest.
- Go to **<http://adoptajsr.java.net>** and follow the simple set-up steps described there:
 - Join the Adopt-a-JSR java.net project.
 - Join the mailing list: <http://java.net/projects/adoptajsr/lists>.

How to start in your language?

- Translate top page, ‘Sign up’, ‘Get started’ ‘Ways to get involved’; plus, a few slides to present to your JUG about Adopt-a-JSR.
- Participate on JSR mailing lists in English and then bring back topics into the JUG in native language.
- Assign people that will present in meetings on Adopt-a-JSR; promote, report and talk about Adopt-a-JSR activities at the JUG meetings.
- Sign up people--take a look at this JSR, find a JSR of interest, participate in JSR mailing lists--track on your wiki, mail list, etc.
- It is a long term effort! Have patience--do not get nervous things are not happening immediately. Enter reminders to follow up weekly (if things are very active) or monthly, more the normal cadence.
- Talk about JCP at every meeting--JSR activity, EC Meeting topics, get comfortable with subject of the JCP--explain what it is, how it works, then get into practical aspects, and how members can get involved.
- Evangelize and communicate results.

Portuguese

Adopt a JSR

5 Comentários

A Adopt a JSR é uma iniciativa internacional criada pela London Java Community e pelo SouJava, os dois Grupos de Usuários Java que fazem parte do Comitê Executivo (EC) do Java Community Process (JCP). O objetivo dessa iniciativa é aumentar a participação dos grupos de usuários nas Java Specification Requests (JSR), as especificações do JCP.

Através dessa iniciativa, iremos oferecer suporte para que os membros do SouJava tenham uma participação mais efetiva nas JSRs, iniciando com uma participação como observadores podendo evoluir de acordo com os interesses do desenvolvedor. Desse modo, o grupo de usuários ganha uma visão mais ampla do JCP e exerce com maior efetividade sua participação no Comitê Executivo JCP, além de compartilhar essa "visão privilegiada" dos participantes do JCP com toda a comunidade Java. Por outro lado, o desenvolvedor interessado ganha experiência e visibilidade, contando com o apoio de outros membros do SouJava dentro do JCP.

Os membros do grupo participam como observadores de JSRs no JCP, com o objetivo de representar o SouJava naquela JSR específica:

- Acompanhar a evolução e as discussões da JSR;
- participar da lista de discussões
- ler a especificação quando disponível
- Compartilhar as informações com a comunidade através de relatórios mensais;
- Participar dos eventos locais e internacionais palestrando ou discutindo sobre a JSR observada;
- Participar da lista padronização do SouJava;

• Acompanhar a evolução e as discussões da JSR;

Adopter une JSR

Introduction

Ce programme vise à encourager les membres des Java User Groups (JUGs) à participer dans la création des Java Specification Requests (JSRs) et à diffuser l'information sur ces JSRs ainsi que leurs développements à la communauté Java grâce aux réunions des JUGs, conférences et autres événements. Les JSRs concernent toutes les technologies Java, par exemple Date and Time API sera inclus dans Java 8, les APIs de Java EE 7 en faisaient partie aussi et bien plus encore! Ce programme permet de:

- Donner des retours plus tôt sur les standards Java. Les standards seront plus proches des exigences des développeurs grâce à leurs retours.
- Fournir aux standards Java l'avis des experts aussi bien développeurs qu'utilisateurs
- Aider pour que les implémentations de référence des standards Java soient développées plus rapidement
- Aider à gérer des projets open source qui surgissent autour d'une JSR

Les avantages pour les membres des JUGs qui contribuent à une JSR sont évidents. Juste pensez à l'ajouter à votre CV.

La JSR 348 apporte une transparence au processus de création des nouvelles JSRs. Cette ouverture est une opportunité pour aider l'écosystème Java à être plus innovant.

Un but bien defini

Ce programme a pour but de regrouper l'énergie et le talent de la communauté Java à travers le monde entier et d'influencer les technologies Java au sein même des JSRs. Par exemple, les membres du programme seront encouragés de tester la complexité de Java 8 en signalant les problèmes des sorties précoces, et en

JUGs around the world!

www.BeJUG.org

How to start an Adopt-a-JSR project

- Start here: <http://adoptajsr.org>.
- Set up a wiki page to coordinate your activities e.g.: <http://java.net/projects/ljc-london-jug/pages/JSR-310>.
- Link that into the matrix at: <http://java.net/projects/adoptajsr>.
- Contact the Spec Lead & Expert Group - find links on JSR pages e.g.: <http://jcp.org/en/jsr/detail?id=310>.
- Mail your JUG members to gather interest.
- Outline what the JSR is and why the JUG should get involved; identify areas that you want to work on; coordinate this with the Spec Lead.
- Organize talks and hackdays.
- Communicate results!!

About this Project

Adopt a JSR is a subproject of Java Users Groups (JUG) Community, was started in December 2011 and has 70 members. The project administrators are Bruno Souza, Martijn Verburg, rwarburton, jcp_pmo, and Frank Nikola.

[Manage This Project](#)

These JSRs are now standards, thanks for helping improve Java! There's still plenty of work that can be done on these, especially if they are new. There's still educational efforts (workshops), working on alternative implementations, working on maintenance fixes and more.

Java EE 7 in general

- Several projects have been donated to GitHub in which users can run test applications against new specifications. This has helped:
 - Fix bugs and tweak APIs to be more developer friendly
 - Raised awareness of Java EE 7
 - Some projects are part of the RI sample kit
- There have been a multitude of Java EE 7 related presentations made at JUG meetings and major conferences

Guidelines for feedback

- The specification lead and the Expert Group has the final decision on incorporating the feedback.
- For specifications in Public Drafts, new feature requests may not be considered for this release. For specifications in Early Draft, new features may be accepted if they are within the existing scope. If new features are not accepted for this release, then they may be considered for the next release.
- Multiple JUGs can and should collaborate on a particular JSR. There is always plenty of work and going through the material multiple times only makes it that more better.
- When communicating with the EG on mailing lists, include "Adopt-a-JSR" in the subject line.
- When filing issues/bugs, use "adoptajsr" tag.

Jira example

The screenshot shows a Jira issue page in a browser window. The browser's address bar shows the URL `java.net/jira/browse/ADOPTAJSR-2`. The Jira header includes the user name 'karianna' and a search bar. The left sidebar contains navigation links for 'Issue Details', 'Available Workflow Actions', and 'Operations'. The main content area displays the following information:

- Key:** ADOPTAJSR-2
- Type:** Task
- Status:** Open
- Priority:** Major
- Assignee:** Thomas Modeneis
- Reporter:** karianna
- Votes:** 1
- Watchers:** 0

The issue details section includes:

- Component/s:** JSR-344 (JSF 2.2)
- Affects Version/s:** None
- Fix Version/s:** None
- Time Tracking:** Not Specified
- Tags:** javadoc, EDIT
- Participants:** Ed Burns, karianna and Thomas Modeneis

The description section contains the following text:

I sure could use some help in bringing the new Javadoc 7 style to the generated portion of the JSF spec [1]. Can anyone from the Adopt-a-JSR program help me out here? The task would be very hands-on, as the generated portion of the spec uses several different kinds of documents as its source inputs.

Ed

[1] <https://maven.java.net/service/local/repositories/snapshots/archive/javafx/faces/javafx-faces-api/2.2-SNAPSHOT/javafx-faces-api-2.2-20121011.174655-72-javadoc.jar/javadocs/index.html>

This is not a permalink so it will probably not resolve once a new nightly gets published. If it does not resolve, just go to <http://maven.java.net/> and put in `javafx:faces:faces-api:2.2-SNAPSHOT` into the search box, select the `-javadoc.jar`, and view it in the archive browser. Instructions are here: <http://weblogs.java.net/blog/edburns/archive/2012/05/17/how-view-absolute-latest-jsf-22-spec-snapshot>

Transparency sub-project

- Transparency sub-project of the Adopt-a-JSR program hosted on java.net.
 - <http://www.java.net/form/jcp-2829-transparency?force=408>.
- JUGs or individuals do transparency checks or audits on JSRs.
- Provide qualitative and quantitative data to the community, Spec Leads, and the Program Office on the JSR's compliance. with the JCP's transparency and participation requirements.
- A matrix of results will be provided for each JSR actively operating under JCP 2.8 and above.
 - <http://java.net/projects/jsr-transparency/pages/Home>.
- Once responses are received :-)

 You must [login](#) or [register](#) to submit this survey.

JCP 2.8/2.9 Transparency

This is a transparency sub-project introduced as part of the Adopt-a-JSR program. We need JUGs or individuals to do transparency checks or audits on JSRs. Provide qualitative data to the community, Spec Leads and Program Office on the compliance to JCP 2.8/2.9 and above transparency and participation requirements.

Please complete online survey below. Your input will go into the Adopt-a-JSR Transparency sub-project with a matrix of results for each JSR actively operating under JCP 2.8/2.9 and above.

For JCP 2.7 and prior please use the [JCP 2.7 Transparency Survey](#).

JSR #: *

Is the schedule for the JSR publicly available, current, and updated regularly?:

- yes
- no

Discussion Board

Is there a publicly accessible discussion board for the JSR that is responded to regularly and are there community contributions on this mechanism?:

- publicly accessible discussion board
- discussion board responded to regularly
- community contributions on this mechanism

How does the EG and Spec Lead interact and communicate on a public mailing list:

-

thank you, tak, tack, merci, grazie,
gracias, danke, obrigado, bedankt,
kiitos, xie xie, ありがとう .

We will meet again in June...
