Actions around Active & Inactive JSRs

Java
Community
Process

- All Spec Leads were contacted by the PMO regarding Inactive category of JSRs in January 2009
 - Many responded, mostly positive reactions
- The “Inactive” label was applied to JSRs in February 2009
 - Inactive JSR list is updated ~ every 6 months
 - Updates made to the Spec Lead Guide and FAQ
 - Introduced Inactive state and emphasis on possibility for multiple drafts of stages, encouraged SL to post activity on their JSR pages
 - Once a JSR is Inactive for more than 6 months, the PMO may encourage withdrawal of the JSR, EC may evoke section 2.1.3
 - Option of Spec Lead, exceptions/circumstances vary; 3 JSRs declared dormant in 2011 as a result of EC vote
