

The Java Community Process Supplemental Contributor License Agreement (“SCLA”)

You have executed this Supplemental Contribution License Agreement in order to supplement the intellectual property licenses granted by you with respect to those JSRs which refer to this SCLA. These additional grants will be made by all Members represented on the subject Expert Group, including the Spec Lead, and by all other JCP Members who have signed this SCLA (collectively, the “Participating Members”). Any capitalized terms used in this SCLA but not defined herein have the meaning provided to them in Your Java Specification Participation Agreement (“JSPA”) (or in Your Individual Expert Participation Agreement (“IEPA”), if appropriate) with Sun Microsystems. References to the “Specification” in this SCLA include the final Java Specification approved by the JCP Process for the subject JSRs and any draft Specifications as evidenced by a written draft exchanged within the subject Expert Groups.

Copyright Grants

You hereby grant to each other Participating Member a perpetual, non-exclusive, worldwide, royalty-free, fully paid-up, sub-licensable, and irrevocable license under any copyright rights You currently have or may acquire in the future, to reproduce, prepare derivative works of, display, perform, distribute and sublicense Your Contributions and such derivative works to create, test, and distribute whole or partial implementations of the Specifications.

Trade Secrets

You represent that You have no Trade Secret or other confidentiality interest in any of the subject Specifications.

Patent Grants

You hereby grant to each other Participating Member a non-exclusive, non-transferable, non-sublicensable, worldwide patent license to Your patent claims whose infringement cannot be avoided in a technically feasible manner when implementing a draft or final Specification for the subject JSR produced while you are a Participating Member. This grant is effective twenty (20) days after the draft or final Specification is produced if You still are a Participating Member, and will survive for any particular patent claim only for so long such claim remains essential to implementing the most current Specification (draft or final) as the Specification may be evolved within the JSR. The scope of this patent grant is to make, use, sell, offer to sell, import, and otherwise transfer compatible implementations (either within or outside the Licensor Name Space) of the most current Specification (draft or final) as it may be evolved within the JSR, provided however, that this grant shall not cover implementations in the Licensor Name Space unless such implementation is capable of passing the TCK for such Specification. If, assuming that the relevant draft Specification were to be adopted unchanged as a Final Specification, You would be obligated under Your JSPA to license this patent claim royalty-free, this patent grant shall also be royalty-free and fully paid up, otherwise, this patent grant is subject to other reasonable and non-discriminatory terms, such as reasonable royalties, consistent with the JSPA.

Open Source Grants

If the Spec Lead has committed in writing that one or both of the RI and TCK are to be published by the Spec Lead under an identified OSI recognized open source license (see <http://www.opensource.org/licenses/index.php>), Your Contributions to the open source RI

and/or TCK, in addition to the grants made above, are made under the terms of the identified open source license.

The grants and commitments in this SCLA are cumulative and supplement the grants and commitments made in Your JSPA (or in your IEPA, if appropriate) with Sun Microsystems and do not impair Your rights to use your own Contributions for any other purpose. Grants and commitments in this SCLA survive termination of this SCLA and of the subject JSR, except that any patent grants that have not yet become effective because less than twenty (20) days have passed since the draft or final Specification has been produced shall terminate.

If you have not already done so, please complete and send an original signed SCLA to Attn: Naresh Revanuru, BEA Systems, 15th Floor, 235 Montgomery Street, San Francisco, CA, 94104. Please read this document carefully before signing and keep a copy for your records.
