

How to make the JCP more exciting?

Bruno Souza, Heather VanCura
November 2013
Public EC Meeting

JCP is now more open than ever...

- Public JSR schedule--current, and updated regularly.
- Public read and/or write page/wiki for the JSR.
- Public discussion for the work of the JSR (archived).
- Public feedback mechanism.
- Public issue tracker.
- One EC votes on all JSRs 3x in life of JSR with public results.
- All JSRs have 3 open public review periods (30 days).
 - JSRs release early and often!

Adopt a JSR!

Thank you **LJC** and **SOU Java**
sociedade de usuários java

- Adopt-a-JSR has been a great push, and put the JCP back in the spotlight:
 - More interest from JUGs.
 - More people involved.
 - More discussions.
- But... getting involved is not easy...
 - Specs are boing; ‘legalese’.
 - These are new times for everyone:
 - Conferences are more interactive.
 - Developers are looking for more hands on, participative activities.

Lessons & Ideas

- Lessons from Adopt-a-JSR & Adopt-OpenJDK Programs.
- Adopt-a-JSR can help lower the barriers and promote experimentation.
- Promote evangelism of the JCP and JSRs.
- Developers are not very interested in specs...we need to promote discussions.
 - JUGs are "evangelism" groups - how can we help them evangelize the JCP?
 - Can we create pre-packaged, easy to replicate activities?
 - Create hackathons around specs and links to presentations around the JSRs.
 - Pre-JSR activities: Once a JSR is introduced, create discussion groups about how we do something today.

Get involved!

How will you participate?

- As an individual – OK.
- As part of a team – better.
- Work through your JUG or employer.
- At JavaOne we were talking about how to get more companies involved
 - Next steps?
