Bruno Souza & Luiz Real

SouJava meets
in person at least
once a month in
these cities:

- São Paulo
- Belém
- Brasília
- Campinas
- Rio de Janeiro

We are attracting many **young developers** and **students**, who represent at least **50% of the attendees**.

We are also welcoming more women developers. One example is our collaboration with the JavaGirls JUG, organizing events together and ensuring a talk slot for them in our meetings.
