2.0 LICENSE GRANTS

2.1 License Grant for the TCK.

(a) Limited Grant. Subject to and conditioned upon Licensee's having accepted and being bound by the Specification License and Licensee's compliance with the restrictions and obligations contained in this Agreement, including in particular Section 2.1(b)(v) below, and except as otherwise set forth in Exhibit A, Oracle hereby grants to Licensee, to the extent of Oracle's Intellectual Property Rights in the TCK(s), a worldwide, non-exclusive, non-transferable, limited license to use the TCK(s) internally and solely for the purpose of developing and testing Products. No license is granted for any other purpose, including any of the activities described in Section 2.1(b).

(b) Additional Limitations. Except as otherwise set forth in Exhibit A, Licensee may not:

JSR 342/Agreement No. _____

TCK Stand-Alone-Oracle- Platform/_____ 20__

- (i) sublicense or distribute the TCK(s) to any third party, except that Licensee may share comments or questions concerning its use or the results of using the TCK (including relevant excerpts of the TCK itself, provided such TCK excerpts are inherently part of such test results); or
- (ii) create derivative works of the TCK(s); or
- (iii) disassemble or decompile binary portions of the Test Suite(s) or Test Tools or otherwise attempt to derive the source code from such portions; or
- (iv) develop other test suites intended to validate compatibility with the Java Specification(s) to which the TCK(s) licensed hereunder corresponds; or
- (v) distribute code which has been tested against the TCK and which implements a substantial portion of the Java Specification unless such code is included in a Product within the meaning of Section 1.9 and unless, for each new release of a Product by Licensee, such Product passes, in accordance with the Documentation (including the TCK Users Guide), the most current TCK applicable to the latest version of the Java Specification and available from Oracle one hundred twenty (120) days before FCS of such version of the Product; provided, however, that if Licensee elects to use a version of the TCK also provided by Oracle that is newer than that which is required under this Section 2.1(b)(v), then Licensee agrees to pass such TCK; or
- (vi) use the TCK to test a third party's product; or
- (vii) use the TCK to make claims of comparative compatibility (for example, a claim either that a Product is "90% compatible" or that the Product is "more compatible" than another implementation of the same Java Specification); provided, however, that with respect to a Product which Licensee has certified in accordance with Section 2.1(d) below, Licensee may disclose Test Reports.

Neither the limited scope of the grant set forth in Section 2.1(a) nor the additional limitations set forth in Section 2.1(b)(v) above shall be understood to require Licensee to include any particular "pass through" requirements in any license it grants concerning the redistribution of a Product with which the TCK licensed hereunder has been used. However, except with respect to downstream products developed and distributed by Licensee's licensees and sublicensees which incorporate, in whole or in part, Licensee's Product and themselves satisfy all the other requirements for a Product set forth in Section 1.9 of this Agreement, Licensee may neither: (a) grant or otherwise pass through to its licensees any licenses under Oracle's applicable

JSR 342/Agreement No. _____

TCK Stand-Alone-Oracle- Platform/_____ 20__

intellectual property rights; nor (b) authorize its licensees to make any claims concerning their implementation's compliance with the Specification in question.

(c) Superseded Releases. Oracle agrees that under the following circumstances the provisions of Section 2.1(b)(v) above shall not be understood to preclude Licensee from distributing maintenance releases (a new release of a preexisting Product that implements substantially the same core technologies) of a Product that implemented a prior version of the Java Specification ("Initial Product") where such maintenance release implements the same version of the Java Specification implemented by the Initial Product:

1. If released before the "Migration Date", such maintenance release passes (in accordance with the Documentation, including the TCK Users Guide) the most current TCK applicable to the version of the Java Specification implemented by the Initial Product and available from Oracle 120 days before FCS of such Product.

2. If released after the "Migration Date":

(i) either Licensee has already released (and continues to make available) a compatible successor Product (per Section 2.1[a],[b] and [d]) that implements the latest available version of the Java Specification implemented by the Initial Product, or Oracle has released and continues to make generally available for license an RI for the latest available version of the Java Specification implemented by the Initial Product; and

(ii) such maintenance releases pass (in accordance with the Documentation, including the TCK Users Guide) the most current TCK applicable to the version of the Java Specification implemented by the Initial Product and available from Oracle 120 days before FCS of such Product.

For the purposes of this Section 2.1(c), "Migration Date" shall mean 120 days after the final release of the latest available version of the Java Specification as described above.

(d) Testing. Licensee shall self-certify that its Product passes the applicable TCK as set forth above, if and when the Product in fact does so. Furthermore, upon thirty (30) days written notice by Oracle and no more than two (2) times per calendar year, Licensee shall permit Oracle or its authorized representative to inspect and test any Product which has been self-certified per this subsection (d) to ensure that such Product meets the compatibility and other requirements for a Product as set forth in Section 1.9 above. The reasonable costs of such inspection shall be at Oracle's expense; provided, however, that Licensee shall reimburse Oracle for such costs if the inspection reveals that the Product does not meet such requirements and the deficiencies are not cured within 30 days.

JSR 342/Agreement No. _____

TCK Stand-Alone-Oracle- Platform/_____ 20__

Licensee shall self-certify that its Product passes the applicable TCK as set forth above. Upon Oracle's reasonable request, Licensee further agrees to provide to Oracle Licensee's test results that demonstrate that the Product passes the applicable TCK.

2.2 Proprietary Rights Notices. Licensee shall not remove any copyright notices, trademark notices or other proprietary legends of Oracle or its suppliers contained on or in the TCK, and shall incorporate such notices in all copies of any TCK. Licensee shall comply with all reasonable requests by Oracle to include additional copyright or other proprietary rights notices of Oracle or third parties from time to time.

2.3 Branding. Except as otherwise specified in Exhibit A, Licensee shall include Oracle's compatibility logo trademark(s) specified in Exhibit A on FCS and subsequent versions of Products it distributes, subject to the Trademark License in Exhibit B, to indicate that such Products meet the applicable compatibility requirements specified herein.

2.4 No Other Grant. This Agreement does not grant to Licensee any right or license, under any Intellectual Property Rights of Oracle or otherwise, except as expressly provided in this Section 2.0, and no other right or license is to be implied by or inferred from any provision of this Agreement or by the conduct of the parties.

3.0 SUPPORT AND UPGRADES

3.1 Licensee Support and Upgrades. Unless otherwise specified in a separate master support agreement executed by Oracle and Licensee, nothing in this Agreement shall obligate Oracle to provide any upgrades, technical support or other assistance concerning the TCK to Licensee or to any distributor or customer of Licensee for its Products.

4.0 CONSIDERATION

4.1 Consideration for the License. As a condition of the grant to use the TCK above, Licensee shall provide the consideration set forth in Exhibit A. Any fee or royalty payments required shall be sent to: Oracle America, Inc., *Software Royalty Accounting Group*, PO Box 10903, Palo Alto CA 94303.

4.2 Taxes. All payments required by this Agreement shall be made in United States dollars, are exclusive of taxes, and Licensee agrees to bear and be responsible for the payment of all such taxes, including, but not limited to, all sales, use, rental receipt, personal property or other taxes and their equivalents which may be levied or assessed in connection with this Agreement (excluding only taxes based on Oracle's net income). To the extent Licensee is required by local law to withhold taxes based upon Oracle's income, Licensee may deduct from any payments to Oracle any income tax or tax of a similar nature (including taxes based on net worth) imposed by any government ("Government Income Tax") and actually paid by Licensee for the account of

JSR 342/Agreement No. _____

TCK Stand-Alone-Oracle- Platform/_____ 20__

Oracle, to the extent such Government Income Tax does not exceed the appropriate withholding amount applicable under relevant tax treaties and qualifies as a creditable foreign tax by the United States government. In the event that Licensee deducts any Government Income Tax from payments owed to Oracle, Licensee shall furnish Oracle with an official tax receipt or other evidence issued by the taxing authority suitable for Oracle to obtain a tax credit in the United States.

5.0 LIMITED WARRANTY AND DISCLAIMER

5.1 ORACLE LICENSES THE TCK ON AN "AS IS" BASIS. ALL REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT ARE HEREBY DISCLAIMED.

5.2 *High Risk Activities.* The TCK is not designed or intended for use in the design, construction, operation or maintenance of any nuclear facility, and Oracle disclaims any express or implied warranty of fitness for such use.

5.3 *Limitation.* The limited warranty set forth in this Section 5.0 is expressly subject to Section 8.0 (Limitation of Liability).

6.0 CONFIDENTIAL INFORMATION

6.1 *Duty of Confidentiality.* Licensee will protect the TCK as Oracle Confidential Information protected under this Section 6.0. A party receiving Confidential Information may not: (i) disclose Confidential Information to any third party, except that such party may exchange comments or questions concerning its use or the results of using the TCK, including relevant excerpts of the TCK, provided such TCK excerpts are inherently part of such results, but not the non-relevant portions of the TCK itself, or (ii) use Confidential Information except for the purpose of developing and testing Products. The receiving party will protect the confidentiality of Confidential Information to the same degree of care, but no less than reasonable care, as such party uses to protect its own Confidential Information. Obligations regarding Confidential Information will expire three (3) years from the date of receipt of the Confidential Information, except for source code, which will be protected by Licensee in perpetuity.

6.2 *Exceptions.* The obligations set forth in this Section 6.0 will not apply to any portion of Confidential Information which a receiving party can demonstrate: (a) through no act or failure to act on the part of the receiving party, is now or hereafter becomes, generally known in the software industry; (b) is hereafter rightfully furnished to the receiving party by a third party without restriction on disclosure; or (c) is independently developed by the receiving party without any use of Confidential Information.

7.0 LIMITED INDEMNITY

7.1 *Pre-Release.* The parties acknowledge that the TCK may be in pre-release form and that Oracle shall not be liable for any defects or deficiencies in the TCK or in any Product, process or design created by, with or in connection with the TCK whether or not such defects and/or deficiencies are caused, in whole or in part, by defects or deficiencies in the design or implementation of the TCK. Upon FCS of the TCK by Oracle, Oracle will provide to Licensee a limited indemnity as described in Sections 7.2-7.3 below.

7.2 *By Oracle.* Oracle will defend, at its expense, any legal proceeding brought against Licensee, to the extent it is based on a claim that authorized use of the FCS or subsequent production version(s) of the TCK is an infringement of a third party trade secret or a copyright in a country that is a signatory to the Berne Convention, and will pay all damages awarded by a court of competent jurisdiction, or such settlement amount negotiated by Oracle, attributable to such claim, provided that Licensee: (a) provides written notice of the claim and any such threatened claim promptly to Oracle; (b) gives Oracle sole control of the defense and settlement of the claim; (c) provides to Oracle, at Oracle's expense, all available information, assistance and authority to defend; and (d) has not compromised or settled such proceeding without Oracle's prior written consent.

7.3 *Exclusive Remedies.* Should any FCS TCK or any portion thereof become, or in Oracle's opinion be likely to become, the subject of a claim of infringement for which indemnity is provided under Section 7.2, Oracle shall, in addition to the obligations specified in Section 7.2, as Licensee's sole and exclusive remedy, elect to: (a) obtain for Licensee the right to use such FCS TCK; (b) replace or modify the FCS TCK to become non-infringing; or if alternatives (a) or (b) are not commercially practicable in Oracle's sole discretion, (c) accept the return of the FCS TCK and grant Licensee a refund of any Access Fee, as set for in Exhibit A, as depreciated on a five year straight-line basis.

7.4 *Disclaimer.* THIS SECTION 7.0 STATES THE ENTIRE LIABILITY OF ORACLE WITH RESPECT TO INFRINGEMENT OF ANY INTELLECTUAL PROPERTY RIGHTS BY THE TCK. ORACLE SHALL HAVE NO OTHER LIABILITY WITH RESPECT TO INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS OF ANY THIRD PARTY.

7.5 *By Licensee.* Except for claims for which Oracle is obligated to indemnify Licensee under Section 7.2, Licensee shall defend, at Licensee's expense, any and all claims brought against Oracle, and shall pay all damages awarded by a court of competent jurisdiction, or such settlement amount negotiated by Licensee, arising out of or in connection with Licensee's use of the TCK or use, reproduction, development or distribution of Product(s). Licensee's obligation to provide a defense under this Section 7.5 shall arise provided that Oracle: (a) provides notice of the claim promptly to Licensee; (b) gives Licensee sole control of the defense and settlement of the claim; (c) provides to Licensee, at Licensee's expense, all available information, assistance

and authority to defend; and (d) has not compromised or settled such proceeding without Licensee's prior written consent.

8.0 LIMITATION OF LIABILITY

Except for express undertakings to indemnify under this Agreement, violation of Oracle's Intellectual Property Rights, or breach of Section 2.0, 4.0 or 6.0: (a) each party's liability to the other for claims relating to this Agreement, whether for breach or in tort, shall be limited to the license fees paid by Licensee for the Technology related to the claims, if any (provided that this limit shall not apply to Licensee's obligation to make payments owed hereunder); (b) IN NO EVENT WILL EITHER PARTY BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH OR ARISING OUT OF THIS AGREEMENT (INCLUDING LOSS OF PROFITS, USE, DATA, OR OTHER ECONOMIC ADVANTAGE), NO MATTER WHAT THEORY OF LIABILITY, EVEN IF EITHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OR PROBABILITY OF SUCH DAMAGES AND WHETHER OR NOT SUCH DAMAGES ARE FORSEEABLE; and (c) LIABILITY SHALL BE SO LIMITED AND EXCLUDED, EVEN IF ANY REMEDIES PROVIDED FOR IN THIS AGREEMENT FAIL OF THEIR ESSENTIAL PURPOSE. The provisions of this Section 8.0 allocate the risks under this Agreement between Oracle and Licensee and the parties have relied upon the limitations set forth herein in determining whether to enter into this Agreement.

9.0 TERM AND TERMINATION

9.1 *Term.* The Term of this Agreement shall begin on the Effective Date and shall continue for the period specified in the applicable Exhibit A (Section II) unless terminated earlier as provided below. Thereafter, the Agreement shall automatically extend five (5) additional one (1) year periods (each a term), unless either party provides written notice of its desire to terminate the Agreement to the other party at least thirty (30) days prior to the expiration of the then-current term. In addition, termination is permitted: (a) by either party for the other party's breach of this Agreement, upon thirty (30) days written notice to the other party and an opportunity to cure within such thirty (30) day period; or (b) by Oracle upon any action by Licensee alleging that use or distribution of the TCK or an implementation of the Java Specification by Oracle or any of Oracle's licensees of the TCK infringes a patent of Licensee.

9.2 *Effect of Expiration.* Upon the expiration or termination of this Agreement, Licensee shall promptly: (a) return to Oracle all copies of the TCK and other Confidential Information of Oracle (collectively "Oracle Property") in Licensee's possession or control; or (b) permanently destroy or disable all copies of the Oracle Property remaining in Licensee's possession or control, except as specifically permitted in writing by Oracle; and (c) upon Oracle's request, provide Oracle with a written statement certifying that Licensee has complied with the foregoing obligations. All rights and licenses granted to Licensee shall terminate upon such termination;

JSR 342/Agreement No. _____

TCK Stand-Alone-Oracle- Platform/_____ 20__

provided, however, than in the event of the expiration of this Agreement then Licensee shall be authorized to: (x) distribute Product(s) previously and successfully self-certified against the version of the TCK licensed hereunder at the time of expiration, subject to Licensee's continued compliance with this Agreement including the payment of any applicable fees, and (y) retain one (1) copy of the TCK to support customers having copies of Product(s) distributed by Licensee prior to the expiration hereof. All other rights of Licensee shall terminate upon such expiration.

9.3 Effect of Termination. In the event of termination of this Agreement in accordance with Section 9.1 above Licensee shall promptly: (a) return to Oracle all copies of the TCK and other Confidential Information of Oracle (collectively "Oracle Property") in Licensee's possession or control; or (b) permanently destroy or disable all copies of the Oracle Property remaining in Licensee's possession or control, except as specifically permitted in writing by Oracle; and (c) upon Oracle's request, provide Oracle with a written statement certifying that Licensee has complied with the foregoing obligations. All rights and licenses granted to Licensee shall terminate upon such termination.

9.4 No Liability for Expiration or Lawful Termination. Neither party shall have the right to recover damages or to indemnification of any nature, whether by way of lost profits, expenditures for promotion, payment for goodwill or otherwise made in connection with the business contemplated by this Agreement, due to the expiration or permitted or lawful termination of this Agreement. EACH PARTY WAIVES AND RELEASES THE OTHER FROM ANY CLAIM TO COMPENSATION OR INDEMNITY FOR TERMINATION OF THE BUSINESS RELATIONSHIP CONTEMPLATED BY THIS AGREEMENT UNLESS TERMINATION IS IN MATERIAL BREACH OF THIS AGREEMENT.

9.5 Non-Exclusive Rights. The rights of Oracle under this Section 9.0 are in addition to any other rights and remedies permitted by law or equity under this Agreement.

9.6 Survival. The parties' rights and obligations under Sections 4.0, 6.0, 7.0, 8.0, 9.0, and 10.0 shall survive expiration or termination of this Agreement, and in addition Oracle's rights and Licensee's obligations under Section 2.0 shall survive.

9.7 Irreparable Harm. Licensee acknowledges that breach of Sections 2.0, 4.0, and 6.0 would cause irreparable harm to Oracle, the extent of which would be difficult to ascertain. Accordingly, Licensee agrees that, in addition to any other available remedies, Oracle shall be entitled to obtain immediate injunctive relief in the event of a breach or threatened breach of such Sections.

1. If Licensee generally uses a bona fide open source software development methodology and does so to develop the Product, then, notwithstanding the additional limitations set forth in Section 2.1b(v), Licensee may make "Intermediate Builds" available subject to the following conditions:

- i. Such Build is marked with the word "UNTESTED" or "INCOMPATIBLE" or "UNSTABLE" or "BETA" in any list of available builds and in every link initiating its download, where the list or link is under Licensee's control.
- ii. Licensee displays the following notice in such a manner that anyone downloading the Intermediate Build must see the notice before commencing the download:

"This is an intermediate build made available for testing purposes only. The code is untested and presumed incompatible with the Java™ Platform, Enterprise Edition (Java EE™) specification. You should not deploy or write to this code, but instead use the tested and certified Java EE compatible version of the code that is available at [*include a url and a link*]. Redistribution of any Intermediate Build must retain this notice."

Licensee must also include the same notice as a README.JAVAEE file with any source code bundle (e.g. tarball) download that corresponds to the Intermediate Build.

- iii. Licensee shall not distribute (except as a passive download as provided above), market or promote Intermediate Builds, including without limitation in connection with providing any goods or services.
- iv. After making its initial release of a Product available, for any Intermediate Build subsequently made available by Licensee that is for the same context or environment (e.g. described by the same hardware architecture, operating system and version, and Java Virtual Machine version), Licensee must at all times also make the corresponding Product available. The link to such Product must be prominent and in close proximity to any corresponding Intermediate Build in any list of available builds or downloads.
- v. Licensee must include the following README.JAVAEE file in the root directory of any source code it may make available through access to a revision control system (e.g. CVS):

"This version of [Project name] source code is made available in support of the open source development process. Some numbered or tagged revisions of this source have been tested and found to pass the Java™ Platform, Enterprise Edition

(Java EE) Compatibility Test Suite, and you can find information on which revisions or tags at [*include URL and link*]. Please note that since only binaries can be tested, source code cannot be described as a compatible implementation of the Java EE Specification. The different build environment on your machine and any changes you may make to this code could render your resulting build incompatible. Because of this, writing or deploying applications to builds based on this code can lead to lack of portability. You should instead consider deploying production applications on the pre-built binaries of [Project Name] that are available at [*include a url and a link*] that have been tested and certified to meet the Java EE compatibility requirements."

vi. For each Product released by Licensee, Licensee must: (a) prominently identify the corresponding source version and configuration, including the identifying tag or other indicator required to extract the source code from the project revision control system, if any; and (b) provide a description of the build environment that was used to create the Product.

For the purposes of this section VI.A.1:

"*Intermediate Build*" means a binary build created as a development step towards what is intended to be a compatible Product and which incorporates the most recent changes made to the source version of the Product designated as "official" (or equivalent term) by Licensee from the immediately prior "official" source version.

2. For any notice required under this Section VI.A, in addition to providing such notice in English you must also include one or more accurate translations of the notice(s) in languages appropriate for the primary intended audiences when such audiences do not have English as their primary language.

VII. Consideration

A. Compatibility Fee: There are two Compatibility licenses available for commercial users, both of which include CTS.

- Option 1: The CTS will be licensed for a flat fee of \$250,000 per year per Marketed Product.
- Option 2: The CTS will be licensed for a fee of \$70,000 plus 2% of adjusted revenues per year per Marketed Product, subject to an annual cap of \$560,000 per year per Marketed Product.

JSR 342/Agreement No. _____

TCK Stand-Alone-Oracle- Platform/_____ 20__

In the event that Licensee is subject to a TCK license for a JSR that Oracle has deemed to be “Related” to this JSR, for each Marketed Product that is compliant with Related JSRs, such Marketed Product will be subject to only a single royalty payment for the TCK licenses to the Related JSRs. Such single royalty payment rate shall be equal to the highest royalty rate of the TCK licenses for the applicable Related JSRs.

For purposes of this Section VII.A, "Marketed Product" means a licensee's product that has its own differentiation and marketing collateral. It may comprise one price list entry, or in some cases multiple entries (for example, to account for different localizations or delivery packaging). By way of example, Oracle WebLogic Server Standard Edition, Oracle WebLogic Server Enterprise Edition, and Oracle WebLogic Suite are three Marketed Products.

Also for purposes of this Section VII.A, “Adjusted Revenues” means all gross corporate revenue related to Marketed Products, and includes without limitation both licensing and services.

All fees shall be due upon execution of this Agreement and upon each anniversary thereafter, except that Adjusted Revenues due pursuant to Option 2 above shall be due on a quarterly basis. In addition, Oracle shall have no obligation to deliver or make available the TCK until such fees are received by Oracle.

B. For Qualified Not-for-Profits and Qualified Individuals: \$0.

Change in Status. If Licensee entered into this Agreement as a Qualified Not-for-Profit or Qualified Individual but at any subsequent time fails to satisfy any of the conditions that give rise to that status (“Conversion Date”), then Licensee shall pay to Oracle any other fees that come due pursuant to this Exhibit A for parties that are not Qualified Not-for-Profits or Qualified Individuals. For the avoidance of doubt, no such fees shall be due if Licensee entered into this Agreement as a Qualified Individual and terminates this Agreement before the Conversion Date.

For the purposes of this Agreement, and so long as not inconsistent with any requirements established pursuant to the Java Community Process:

“*Qualified Not-for-Profit*” means a legally organized not-for-profit entity (such as, but not limited to, a "501[c]([3])" corporation) that is not owned or effectively controlled, based on prevailing standards of law in the applicable jurisdiction, by a commercial interest, that uses the TCK for the purpose of developing and distributing a compatible, non-commercial, independent implementation of a Specification, and that has established to the satisfaction of Oracle, in its reasonable discretion, that such entity is ready to begin testing its credible implementation of the Java Specification in question.

“*Qualified Individual*” means an individual not acting for or on behalf of a legally organized entity that uses the TCK for the purpose of developing and distributing a compatible, non-

commercial, independent implementation of a Specification, and that has established to the satisfaction of Oracle, in its reasonable discretion, that such individual is ready to begin testing its credible implementation of the Java Specification in question.

“*non-commercial implementation*” means an implementation by Licensee or derived from Licensee’s implementation that is not used for strategic gain or advantage against Oracle and/or an implementation by Licensee that is not used for direct or indirect commercial gain.

VIII. Branding

A. Branding. Pursuant to a separate Trademark License required to be executed by Licensee concurrent with the execution of this Agreement, Products must be branded with the compliance logo specified by Oracle below, if any, that corresponds to the Java Specification (the "Logo").

2.1 Grant to Licensee. Subject to and conditioned upon Licensee's compliance with all restrictions set forth in the SATCK and this License, Oracle grants to Licensee a worldwide, non-exclusive, non-sublicensable, non-transferable, license to:

a. *Technology Compliance Logo(s)*: use the appropriate Technology Compliance Logo provided by Oracle only in connection with the marketing, advertising, distribution and/or sale of each Product that implements the corresponding Java Specification and that fully meets the requirements of Section 2.6 below;

b. *Java Licensee logo*: use the Java Licensee logo on marketing material, trade show material and collateral, whether or not in connection with a specific Licensee Product, to advertise that Licensee is a current SATCK licensee, provided that the Java Licensee logo may not be used on any Product (including media or electronic versions), Product packaging or Product documentation or other items that accompany Licensee's shipping containers;

c. *For Java Tagline*: use the For Java Tagline in conjunction with, and immediately following, the name(s) of each Product that fully meets the requirements of Section 2.6 below; and

d. *No Other Rights*. Licensee is granted no other right, title or interest in or license to the Java Logo(s), the For Java Tagline, or any other Oracle Trademark for any purpose, and is specifically granted no right to sublicense the Java Logo(s), the For Java Tagline, or any other Oracle Trademarks.

e. *No Limitation on Use*. Subject only to the rights specifically granted to Licensee hereunder, nothing contained in the License shall be construed to limit or restrict, in any way or manner any right of Oracle to encumber, transfer, license, access, reference or practice any Oracle Trademark in any way for any purpose or use, including without limitation, Oracle's use, licensing and/or registration of Oracle Trademarks anywhere in the world for any purpose.

f. *Amendment/Replacement of Java Logo(s)*. Oracle reserves the right to amend the Technology Compliance Logo(s) and/or the Java Licensee logo or to replace them with different logos. In addition, Licensee shall not affix the amended or replaced Java Logo(s) to new Product not yet being manufactured, or to materials associated with such new Product, but instead shall use the replacement logo(s) supplied by Oracle.

2.2 Territory Reduction. Oracle may modify the license grant specified in Section 2.1 above to eliminate any jurisdiction from this License if Oracle reasonably determines that use or JSR 342/Agreement No. _____

continued use of the Java Logo(s) in such jurisdiction may subject Oracle or any third party to legal liability, or may jeopardize Oracle's rights in the Java Logo(s) or any other Oracle Trademark in that or any other jurisdiction. In such event, as quickly as possibly but in no event later than sixty (60) calendar days after receipt of Notice from Oracle, or such earlier date as required by court or judicial order, Licensee shall cease all use of the Java Logo(s) in such jurisdiction.

2.3 [Intentionally left blank].

2.4 Ownership of Oracle Trademarks. As between Oracle and Licensee, Licensee acknowledges and agrees that Oracle is the sole owner worldwide of all right, title and interest in and to the Oracle Trademarks and all goodwill associated with the Oracle Trademarks, for use on and in connection with computer hardware, software, peripherals, technologies, services and other related goods and services. In its sole discretion, Oracle may commence, prosecute or defend any action or claim concerning the Java Logo(s). Oracle shall have the right to control any such litigation, and Licensee shall fully cooperate with Oracle in any such litigation, including the satisfaction of procedural requirements necessary to bring such litigation in a particular jurisdiction. License. Licensee shall not commence any action regarding the Java Logo(s), without Oracle's prior written consent which Oracle may withhold in its sole discretion.

2.6 Quality Requirements.

a. *Certification and Audit.* Licensee must use the Technology Compliance Logo in accordance with the terms of the SATCK. This License applies only to versions of Products that have successfully completed the compliance testing in accordance with the Java Test Suites (or Technology Compatibility Kit or TCK) as defined in the SATCK, and which otherwise fully comply with all other compliance requirements of the SATCK, including without limitation any required audit of test results.

b. *Notification of Testing; Records.* At least thirty (30) days prior to Licensee's distribution of the first copy of each release of a Product bearing the Technology Compliance Logo, Licensee shall provide Notice to Oracle certifying that such Product has successfully completed the compliance testing in accordance with the Java Test Suites (or Technology Compatibility Kit or TCK) and otherwise fully complies with all other compliance requirements of the SATCK. Licensee shall keep written records of such compliance testing, including without limitation results of such compliance testing or required audit results, for the term of this License plus two (2) years thereafter, and make such records available to Oracle promptly upon written request.

c. *Inspection.* Upon thirty (30) days Notice by Oracle no more than two (2) times per calendar year, Licensee shall permit Oracle or its authorized representative to inspect and test any Product with which the Technology Compliance Logo is used to ensure that such Product meets the compliance requirements of the SATCK.

d. *Notice of Noncompliance.* Licensee shall give prompt Notice to Oracle of any complaint or other indication by any customer or other third party that any Product bearing the Technology Compliance Logo may not meet the compliance requirements of the SATCK or any other requirement of the SATCK or this License.

e. *Reputation and Industry Standards.* In addition to the other quality requirements set forth in this Section 2.6, Licensee shall maintain the quality of the Product on or in connection with which it uses the Java Logo(s) in a manner consistent with all terms, conditions and requirements set forth in this License and the SATCK and at a level that meets or exceeds Licensee's overall reputation for quality and that is at least commensurate with industry standards. All Product shall comply with all local and government regulations and requirements of the jurisdiction into which such Product is sold.

2.7 Java Logo Usage, Location and Attribution.

a. *Artwork.* Licensee must use the Java Logo(s) only in the exact form of approved camera-ready artwork or electronic artwork received from Oracle or Oracle's designee.

b. *Guidelines.* Licensee's use of the Java Logos and all other Oracle Trademarks shall comply with the then current Java Trademark Guidelines, which Oracle may modify from time to time.

c. *Display.* Wherever Licensee displays a Java Logo, it must also display its own corporate name and logo, and shall display the Java Logo (i) in a size and style less prominent than, and separately from any of, Licensee's own names, marks or logos, (ii) separately from any other name, mark or logo, (iii) accompanied by a TM or ® symbol if incorporated into the artwork received from Oracle or its designee, and (iv) when using the Technology Compliance Logo, in such a manner that it is clear that the Technology Compliance Logo refers only to the specific Product which has met the compliance requirements of the SATCK and not any other product of Licensee or any third party. Specifically, when the Product with which the Technology Compliance Logo is used is bundled with other Licensee or third-party products that do not meet the compliance requirements of the SATCK, Licensee shall always display the Technology Compliance Logo in such a manner that it is clear, in Oracle's sole discretion, that the Technology Compliance Logo refers only to Product (that has met the compliance requirements) and not to any product in the bundle which has not met the compliance requirements. In no event can Licensee use the Compatibility Logo with a Product that includes or is used, marketed or distributed in connection with an implementation of a Java specification if such implementation has not passed Oracle's Java test suites in compliance with Oracle's compatibility requirements.

d. *Placement.* Licensee shall display the Technology Compliance Logo(s): (i) on external Product packaging, on the accompanying documentation and any media containing the Product (disk, CD-ROM, tape, etc.); (ii) on web pages featuring information about the Product, in GIF images that point to the current Oracle page on Java Technologies (<http://www.java.com>) via hypertext link; (iii) on splash screens appearing upon launch of the Product, the launch of the Java virtual machine and the start-up of Java technology-based applications and on general Product information screens (e.g., "About", "Help", "Info", and any menu for Java applications); (iv) on tangible marketing collateral featuring the Product including advertisements, direct mail, web pages, retail store displays, brochures and datasheets; and (v) v) on the front of the hardware or device or, for laptops, in the space below the keyboard .

TCK Stand-Alone-Oracle- Platform/_____ 20__

e. *Pre-FCS Use.* Licensee may begin use of the Technology Compliance Logo(s) in advance of FCS of a Licensee Product to begin production packaging and preparation, however Licensee may not distribute Product with the Technology Compliance Logo(s) without otherwise complying with the terms of this License, including but not limited to, the quality requirements set forth in Section 2.6 above.

f. *Legend.* Licensee shall legibly display the following trademark legend on all materials in or on which Licensee displays the Java Logo(s) and/or the For Java Tagline: "Java is a registered trademarks of Oracle and/or it affiliates ." Where space on such materials does not permit the foregoing legend to be legibly reproduced, Licensee shall legibly display the following trademark legend: "Java is a trademark of Oracle."

3.0 DISCLAIMER OF WARRANTY. Oracle licenses the Java Logo(s) to Licensee on an "AS IS" basis. ORACLE MAKES NO WARRANTIES OF ANY KIND RESPECTING THE JAVA LOGO(S), INCLUDING THE VALIDITY OF ORACLE'S RIGHTS IN THE JAVA LOGO(S) IN ANY JURISDICTION, AND ALL REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT OF THE JAVA LOGO(S) ARE HEREBY DISCLAIMED.

4.0 LIMITED INDEMNITY.

4.1 In the event Licensee receives a claim of infringement with respect to the Java Logo(s) in any jurisdiction, Oracle shall at its election, and as Licensee's sole and exclusive remedy, either: (i) release Licensee from further obligation to include the Technology Compliance Logo on Products distributed in such jurisdiction until such claim is satisfactorily resolved, and/or (ii) provided Licensee is not in breach of this License, defend and indemnify Licensee with respect to such claim and pay all damages awarded by a court of competent jurisdiction, or such settlement amount negotiated by Oracle, attributable to such claim, provided that Licensee: (a) provides Notice of the claim promptly to Oracle; (b) gives Oracle sole control of the defense and settlement of the claim; (c) provides to Oracle, at Oracle's expense, all available information, assistance and authority to defend; (d) has not compromised or settled such proceeding without Oracle's prior written consent; and (e) upon Oracle's request, promptly stops using the Java Logo.

4.2 THIS SECTION 4 STATES THE ENTIRE LIABILITY OF ORACLE WITH RESPECT TO INFRINGEMENT OF ANY INTELLECTUAL PROPERTY RIGHTS RELATED TO THE JAVA LOGO(S). ORACLE SHALL HAVE NO OTHER LIABILITY WITH RESPECT TO

INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS OF ANY THIRD PARTY AS A RESULT OF USE, LICENSE, OR DISTRIBUTION OF PRODUCTS OR JAVA LOGO(S).

5.0 LIMITATION OF LIABILITY. Except for the express undertaking to indemnify provided in Section 4, breach of the SATCK, infringement of Oracle's intellectual property rights and/or breach of Sections 2.4, 2.6, or 2.7 by Licensee:

a. Oracle's liability to Licensee for claims relating to this License, whether for breach or in tort, shall be limited to \$500 US.

b. IN NO EVENT WILL EITHER PARTY BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES IN CONNECTION WITH OR ARISING OUT OF THIS LICENSE (INCLUDING LOSS OF PROFITS, USE, DATA, OR OTHER ECONOMIC ADVANTAGE), NO MATTER WHAT THEORY OF LIABILITY, EVEN IF EITHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OR PROBABILITY OF SUCH DAMAGES. FURTHER, LIABILITY FOR SUCH DAMAGE SHALL BE EXCLUDED, EVEN IF THE EXCLUSIVE REMEDIES PROVIDED FOR IN THIS LICENSE FAIL OF THEIR ESSENTIAL PURPOSE. The provisions of this Section 5.0 allocate the risks under this License between Oracle and Licensee and the parties have relied upon the limitations set forth herein in determining whether to enter into this License.

Nothing contained herein shall limit either party's recovery for breach of the SATCK.

6.0 TERM AND TERMINATION.

6.1 Term. This License shall begin on the Effective Date and continue until Licensee is no longer authorized to distribute Products pursuant to the SATCK, unless earlier terminated. In addition to termination resulting from termination of the SATCK, termination is permitted for breach of this License (a) upon thirty (30) days Notice to the other party and failure to cure within such thirty (30) day period, or (b) immediately upon Notice if such breach, by its nature, cannot be remedied.

6.2 Obligations Upon Termination. Upon termination of this License, Licensee shall promptly cease use, display and distribution of all Products and materials containing the Java Logo(s) and/or the For Java Tagline. All rights and licenses granted to Licensee shall terminate upon such termination.

6.3 No Liability for Expiration or Lawful Termination. Neither party shall have the right to recover damages or to indemnification of any nature, whether by way of lost profits,

expenditures for promotion, payment for goodwill or otherwise made in connection with the business contemplated by this License, due to the expiration or permitted or lawful termination of this License. EACH PARTY WAIVES AND RELEASES THE OTHER FROM ANY CLAIM TO COMPENSATION OR INDEMNITY FOR TERMINATION OF THE BUSINESS RELATIONSHIP UNLESS TERMINATION IS IN MATERIAL BREACH OF THIS LICENSE.

6.4 No Waiver. The failure of either party to enforce any provision of this License shall not be deemed a waiver of that provision. The rights of Oracle under this Section 6.0 are in addition to any other rights and remedies permitted by law or under this License.

6.5 Survival. The parties' rights and obligations under Sections 2.4, 2.5, 2.6(b), 3.0, 4.0, 5.0, 6.2, 6.3, 6.4, 6.5, 6.6 and 7.0 shall survive termination of this License.

6.6 Irreparable Harm. Notwithstanding the limitation of liability set forth in Section 5.0 above, Licensee agrees that a material breach of Section 2.0, 6.2 or 7.6 is likely to cause irreparable harm to Oracle, the extent of which would be difficult to ascertain and for which damages would not be an adequate remedy. Therefore, in addition to its rights and remedies otherwise available at law, including, without limitation, the recovery of damages for breach of this License, Oracle shall be entitled to (a) immediate equitable relief, specifically including, but not limited to, both interim and permanent restraining orders and injunctions, and (b) to such other and further equitable relief as the court may deem proper under the circumstances.

7.2 Partial Invalidity. If any of the above provisions are held to be in violation of applicable law, void, or unenforceable in any jurisdiction, then such provisions are herewith waived or amended to the extent necessary for the License to be otherwise enforceable in such jurisdiction. However, if in Oracle's opinion deletion or amendment of any provisions of the License by operation of this paragraph unreasonably compromises the rights or increase the liabilities of Oracle or its licensors, Oracle reserves the right to terminate the License.

7.6 Assignment. Licensee may only assign this License in conjunction with an assignment of the Agreement.
