Oracle America, Inc.

1. Effect. This Attachment D is to the Community Binary Reference Implementation License ("OCBRI") for the following Technology:

Java™ Platform, Micro Edition 8 – Embedded Profile (JSR 361) Reference Implementation

You have agreed to the terms of the OCBRI by selecting the "Accept" button at the end of the OCBRI or executing a hardcopy OCBRI with Original Contributor. You acknowledge that the OCBRI is binding on You. This Attachment D is effective only if signed below by You and Original Contributor, and applies to Your Commercial Use of Original Code and Upgraded Code. All capitalized terms used herein shall have the same meaning set forth in the OCBRI, unless otherwise stated.

2. Term. Subject to Section 6 of the OCBRI, upon execution of this Attachment D by You and Original Contributor, this Commercial Use license shall have an initial term of 3 years.

3. Commercial Use License Grant. Subject to Your compliance with Section 4 below, Section 8.10 of the Research Use license, and the TCK license; in addition to the Research Use license, the TCK license, and the Internal Deployment Use license, Original Contributor grants to You a worldwide, non-exclusive, non-transferable, fee-bearing license, to the extent of Original Contributor's Intellectual Property Rights covering the Original Code, Upgraded Code and Specifications, to do the following:

- a) reproduce and distribute Compliant Covered Code (including, without limitation, Compliant Covered Code created by compiling Source Code portions), in Executable Form as part of a Product, as such term is defined in your license to the TCK, that passes the TCK;
- b) copy, modify and compile the Source Code portions, if any; and
- c) reproduce and distribute Reformatted Specifications in association with Compliant Covered Code.

4. Additional Requirements and Responsibilities. In addition to the requirements and responsibilities specified in the Research Use license, the TCK license and the Internal Deployment license, and as a condition to exercising the rights granted in Section 3 above, You agree to the following additional requirements and responsibilities:

- a) Distribution of Source Code. Source Code portions of the Compliant Covered Code may be distributed only to another Licensee of the same Technology.
- b) Distribution of Executable Code. You may distribute the Executable version(s) of Compliant Covered Code as part of a Product under a license of Your choice, which may contain terms different from this License, provided (i) that You are in compliance with the terms of this License, and (ii) You must make it absolutely clear that any terms which differ from this License are offered by You alone, not by Original Contributor or any other Contributor.
- c) Compliance. For all Commercial Use, You agree to distribute only compliant implementations of Original Contributor's Java community Process Specifications that meet the requirements of Compliant Covered Code as set forth in the OCBRI and this Attachment D.
- d) Branding. No logo or word mark is licensed hereunder in association with Compliant Covered Code.

5. Indemnity/Limitation of Liability. The provisions of Section 7.1 of the Research Use license are superseded by the following:

- a) Your Indemnity Obligation. You hereby agree to defend, at Your expense, any legal proceeding brought against Original Contributor or any Licensee to the extent it is based on a claim: (i) that the use, reproduction or distribution of any of Your Error Corrections or Shared Modifications is an infringement of a third party trade secret or a copyright in a country that is a signatory to the Berne Convention; (ii) arising in connection with any

representation, warranty, support, indemnity, liability or other license terms You may offer in connection with any Covered Code; or (iii) arising from Your Commercial Use of Covered Code, other than a claim covered by Section 5.b) below, or a patent claim based solely on Covered Code not provided by You. You will pay all damages, costs and fees awarded by a court of competent jurisdiction, or such settlement amount negotiated by You, attributable to such claim.

b) Original Contributor's Indemnity Obligation. Original Contributor will defend, at its expense, any legal proceeding brought against You, to the extent it is based on a claim that Your authorized Commercial Use of Original Code and Upgraded Code is an infringement of a third party trade secret or a copyright in a country that is a signatory to the Berne Convention, and will pay all damages, costs and fees awarded by a court of competent jurisdiction, or such settlement amount negotiated by Original Contributor, attributable to such claim. The foregoing shall not apply to any claims of intellectual property infringement based upon the combination of code or documentation supplied by Original Contributor with code, technology or documentation from other sources.

c) Right of Intervention. Original Contributor will have the right, but not the obligation, to defend You, at Original Contributor's expense, in connection with a claim that Your Commercial Use of Original Code and Upgraded Code is an infringement of a third party patent and will, if Original Contributor chooses to defend You, pay all damages, costs and fees awarded by a court of competent jurisdiction, or such settlement amount negotiated by Original Contributor, attributable to such claim.

d) Prerequisites. Under Sections 5.b) and c) above, You must, and under Section 5.a) above, Original Contributor or any Licensee must: (i) provide notice of the claim promptly to the party providing an indemnity; (ii) give the indemnifying party sole control of the defense and settlement of the claim; (iii) provide the indemnifying party, at indemnifying party's expense, all available information, assistance and authority to defend; and (iv) not have compromised or settled such claim or proceeding without the indemnifying party's prior written consent.

e) Additional Remedies. Should any Original Code, Upgraded Code, TCK, Specifications, or Modifications become, or in the indemnifying party's opinion be likely to become, the subject of a claim of infringement for which indemnity is provided above, the indemnifying party may, at its sole option, attempt to procure on reasonable terms the rights necessary for the indemnified party to exercise its license rights under this License with respect to the infringing items, or to modify the infringing items so that they are no longer infringing without substantially impairing their function or performance. If the indemnifying party is unable to do the foregoing after reasonable efforts, then the indemnifying party may send a notice of such inability to the indemnified party together with a refund of any license fees received by the indemnifying party from the indemnified party for the infringing items applicable to the indemnified party's future use or distribution of such infringing items, in which case the indemnifying party will not be liable for any damages resulting from infringing activity with respect to the infringing items occurring after such notice and refund.

6. Support Programs. Technical support is not provided to You by Original Contributor under this License. You are responsible for providing technical and maintenance support services to Your customers for Your products and services.

7. Fees, Royalties and Payments.

a) Annual Fee. \$50,000 per year for access to and distribution of the Reference Implementation of the Technology, which can be obtained only if you have also ordered, or order concurrently, Part No. _____ (to license the Java™ Platform, Micro Edition 8 – Embedded Profile TCK).
