1.6   Servlet or EJB only containers

The requirements of this specification that must be satisfied by a target platform that is a compatible implementation of one but not both of the Servlet and EJB specifications are reduced as described in the next two sections.

1.6.1   Servlet Only Containers

A platform that is a compatible implementation of the Servlet specification and that is not a compatible implementation of the EJB specification must satisfy all of the requirements of this specification with the following exceptions:

1. the policy configuration requirements defined in Section 3.1.4, "EJB Policy Context Identifiers" and in Section 3.1.5, "Translating EJB Deployment Descriptors"

2. the policy enforcement requirements defined in Section 4.3, "Policy Enforcement by EJB Containers" and Section 4.4, "Provider Support for EJB Policy Enforcement"

3. the policy context handler requirements defined in Section 4.6.1.2, "SOAPMessage Policy Context Handler", and Section 4.6.1.4, "EnterpriseBean Policy Context Handler", and Section 4.6.1.5, "EJB Arguments Policy Context Handler"

1.6.2   EJB Only Containers

A platform that is is a compatible implementation of the EJB specification and that is not a compatible implementation of the Servlet specification must satisfy all of the requirements of this specification with the following exceptions:

1. the policy configuration requirements defined in Section 3.1.2, "Servlet Policy Context Identifiers" and in .Section 3.1.3, "Translating Servlet Deployment Descriptors"

2. the policy enforcement requirements defined in Section 4.1, "Policy Enforcement by Servlet Containers" and Section 4.2, "Provider Support for Servlet Policy Enforcement"

3. the policy context handler requirements defined in .Section 4.6.1.3, "HttpServletRequest Policy Context Handler"
